

# UAW Local 1407 On Strike

On March 8, 2020 UAW Local 1407 went on an Unfair labor Practice strike against Cummins Filtration in Cookeville, TN. The nearly 400 member local has been in negotiations for the past 8 weeks trying to reach a fair and equitable contract. We have taken the company's proposals to the membership twice and both times it was voted down by a large margin so the membership's voice has been heard. Not only are they standing up for themselves, but the hurt that this community and many of our members have endured due to the devastating tornadoes of this past week weighs heavy on them. Please stand strong with these striking brothers & sisters as this was not a decision they have taken lightly. Local 1407 members could use our prayers and financial support. If your local would like to take a collection to help Local 1407 members, contact the region office to get the donations to these members.
