RE: General Motors North America Profits – 2nd Quarter 2024

Greetings:

Earlier today, Tuesday, July 23, 2024, General Motors announced that General Motors North America made \$4.4 billion dollars earnings before income tax (EBIT) for the 2nd Quarter of 2024.

This profit does not happen without the great work of our UAW-GM Members building world-class vehicles, right here in the U.S.A.

As always, In solidarity,

Mike Booth
Vice President and Director
